THE INLAND PRESS.

Entered according to act of Congress, in the year 1899, by GLEN V. MILLS, in the Office of the Librarian of Congress, at Washington, D. C.

PUBLISHER'S ANNOUNCEMENT.

The publisher takes pride in presenting to the business int ests of Washtenaw County his seventh edition of this work; whi for accuracy and completeness, for quality of material used a quantity of information included is without a peer among public tions of like nature. The publisher has explored every field search of new ideas and consulted every patron to ascertain h wants. When once an improvement has been found neither tin nor expense has been spared to attain perfection.

For the cities, maps, house and street directories, cross refe ences of names of similar pronunciation but widely different spel ing and removal of persons since the last issue, are the princip features, in addition; few of which are placed in city directorie generally. For the county a complete house-to-house canvass ha been made of the farming portion and the names in full of all resi dents, as well as absolutely correct postoffice addresses secured To this has been added the acreage and assessed valuation of rea and personal property, thus making a complete directory of peopl and property in that portion. Names of non-resident owners ar set in *italics*.

Recently the Association of American Direotory Publishers was organized whose object is "the advancement of the directory business and the improvement of Directories by the exchange of ideas and the exchange of experienced employees, also by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable." Your publisher took the first opportunity to unite with this association, the result of which cannot fail but be beneficial to all using directories.

The publisher wishes to call attention to the library of directories of the principal cities of the United States on file in his office.

In connection with this subject the publisher wishes to call the attention of the business men to the necessity of giving increased financial assistance to their city directory so that the same may be in proportion to the increase of expense made necessary by extra information. This will not necessitate an extra expenditure providing the business firms abstain from squandering their money in so-called business directories, calenders and miscellaneous fake advertising schemes.

The publisher wishes to thank the patrons for their liberal patronage, the people throughout the county for their willingness in giving the desired information, and the supervisors of the several townships for their assistance in compiling the farmers' list, whose earnest co-operation is so necessary in making the county portion reliable.

In subsequent publications the same painstaking spirit will be manifested as has been shown in this work, and each succeeding edition will be marked in improvement and reliability.

The eighth edition of the Ann Arbor Directory will be issued during December, 1899.

Knowledge That Goes for Naught.

A man may know Latin and Greek,
And French and German, too;
He may know his Homer, his Shakespeare and
His Bible through and through;
His knowledge of science may be
A wonderful thing, in its way;
He may know all the depths of the sea
An' the height of each vast Himalay;
t just as well be a clam,
at all.
